** The 36-month delivery period contract (ending May 2024) originally planned for the October 2020 and January 2021 auctions has been replaced with a 12-month delivery period contract (ending May 2022) pursuant to the PUCO July 15, 2020 Finding and Order.*

The August 2021 auction was been added to the schedule per PUCO approval to compensate for the truncated portions of the October 2020 and January 2021 auction tranches.

The January 2022 auction moved to March 2022 due to the delay of PJM's next BRA for capacity delivery year 2023/2024 per PUCO approval.

*** The 24-month delivery period contract (ending May 2024) originally planned for the March 2022 auction has been replaced with a 12-month delivery period contract (ending May 2023).*
The uncommitted portion of load covered by the ESP-IV auction cycle will be procured at a later date. The exact dates of the future procurements and products to be procured are to be determined.
